GENERAL NOTES
The information indicated on this map represents the results of surveys made on the date indicated and is not to be used for any other purpose. All depths and soundings are referred to the International Great Lakes Datum 1985 (IGLD 1985) and all horizontal positions are referred to North American Datum 1983 (NAD83). See the SITE SPECIFIC NOTES and all pertinent data for a complete description of the survey and method of survey. Specific details are for general information only. To have a digital version of the survey data in a format suitable for use in a GIS or other application, contact the Buffalo District Office. This drawing was prepared using a CAD system. Scanning map was performed.
